## CANOE TRIP TODAY

Fourteen scouts and two leaders will leave camp this afternoon to take part in the second canoe trip of the 1937 season. The trip this period will be taken down the White River, with the canoes being put in at Portage Pass and taken out when they reach White Lake.

All three camps on Crystal Lake will participate in the trip and each camp will travel down the river in a separate group.

If former canoe trips are any examples, everyone should have a fine time.

"hope right."

## AMETUR NIGHT

The camp Stuart ametur night will be held on Wednesday eve. This great event will be put out over the air through the Coast to Coast Network of the Columbia Broadcasting System. None other than our famous "Red Malone" will be the master of ceremonies and the producer and promoter of the show is our genial clerk, Bill Rohter.

Any scouts having any talent in any form of entertainment should see Bill.

Most of the success of the ametur night last period was due to the cooperation of all scouts. So, let's go to town with it.

### ALL ABOUT CAMP STUART

Due to the new addition to the commissary department, many old timers who, heretofore have quaked at the thought of being waiter are now turning to the task with much gusto. If you have been wondering why so many of the staff members have been going up for seconds, this may be the answer.

Out of the three permanent staff men who went into Chicago during the stayover, only two of them found themselves physically able to attend the campfire on Monday night. The third member, our noble Handicraft, director, found more comfort tucked between his blankets. Was the old town too hot for you, Art? And by the way, Art, is that beauty sleep between reville and first call doing any good???

Certain scouts in Site six may be going out for their Owasisippe "O"s in Nature but it is going a little bit too far when they come into their tent and find 5 or 6 frogs frolicking around in their suitcases and trunks.

Please excuse all typographical errors. Faulty typewriter!!!!

"Salomey Kid Rohter" reports that there have been frequent raids on his tender bit of sausage in the last few nights. Due to the fact that there is a feud now going on between the Hiking department and the men on the Clerical staff, Scouters Rohter and Mills wonder if the Hiking department men had a foot in it. (the salomey)

Clark Gable may slay the women on the screen, but on the streets of Muskogon it's "Tarzan" Dunbar. In the movies it takes Clark 45 minutes to make love, but it takes Tarzan only about 6 or 7. The first young maiden to fall before the gaze of Tarzan was a pretty young waitress in a restaurant. By the time he had finished his meal she had his picture and he had her name and address, but alas there was no telephone. The next fortunate young woman was a customer in the 5 and 10 cent store. She was much more alluring and it took our "Romeo" a little longer to win her address and full name. In the meantime Tarzan's three companions were waiting impatiently in front of the store. The trip ended quite disastrously for all, as the car in which they were riding broke down, very unceremoniously.

Can you guess who the plump young stayover is who intrusted a large box of cookies to the third cook? He called the next day and received the box intact. This same young "Romeo" then proceeded to make a date for a row boat ride a few days hence. (Incidentally he did not keep the date.) Could his name start with a "V"-----I wonder !!!!!

Well, this is the end of the so called "Dirt Column" but I am told that if you want any more dirt, see Art Mertz' neck before breakfast.
